

All-in-One Mobile C-arm with Integrated FPD

BELLIGER ACE

Key Features

Experience next-level innovation in space utilization, imaging precision, and procedural performance — all with an **integrated FPD**

All-in-One Body

Compact Design for Optimal Use of Limited Space.

Free Space 860mm

Enhanced Free Space for Unrestricted Procedures.

High-Speed Image Processing

GENORAY's advanced low-latency technology minimizes image delay, delivering fast and accurate images that maximize procedural efficiency.

Low-Dose Technology for Patients and Users

GENORAY's low-dose technology minimizes radiation exposure without compromising image quality — protecting patients and reducing long-term risks for medical staff.

Product Overview

All-In-One Body Design

3.2kW HFG

Free Space 860mm

20x20cm CMOS
/ 21x21cm TFT

27" Touch Monitor

Digital Subtraction
Angiography

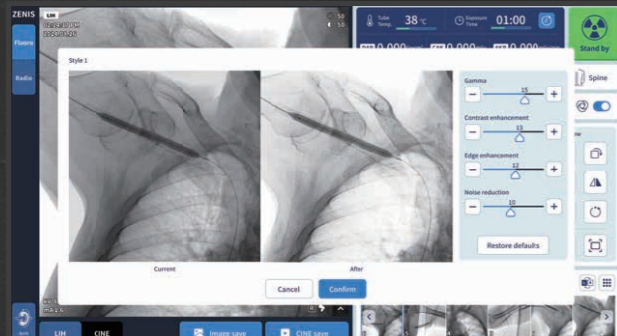

With its All-in-One design, there's no need for a separate cart — freeing up valuable space in the procedure room.

BELLIGER ACE

ZENIS IV plus

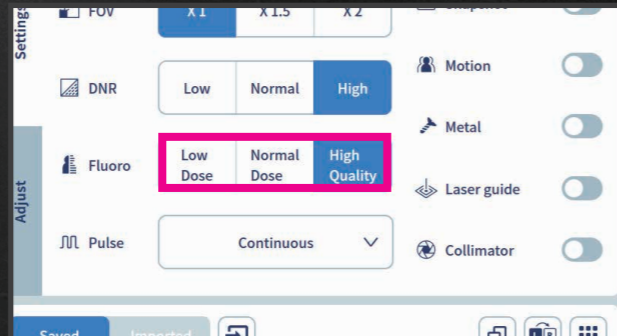

Upgraded UI for the Optimal Diagnostic Environment

Clinical Data

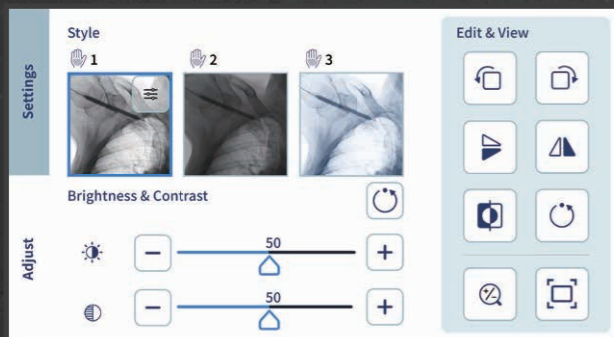

DNR (Dynamic Noise Reduction)

Dynamic Noise Reduction eliminates image noise, delivering sharper and more reliable images.

Dose Level Adjustment

Optimized dose adjustments ensures safe use in various dose modes, while consistently delivering clear images for every patient and procedure.

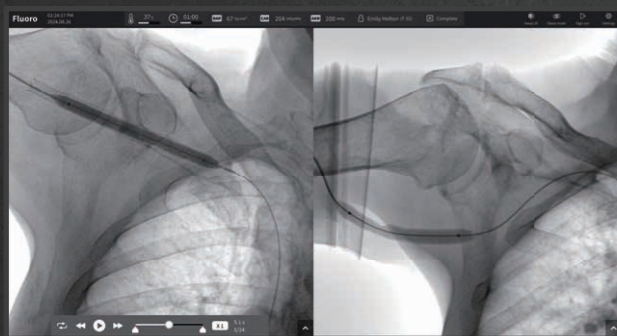

Style Template Function

Offers three customizable imaging styles, allowing users to choose their preference and create an optimal imaging environment.

Snap Shot

While in real-time fluoroscopy, users can capture their desired still image in high resolution.

Real-Time Image Comparison - Swap

Freely switch between live and reference images, to enable an accurate comparative diagnosis and localization for procedures.

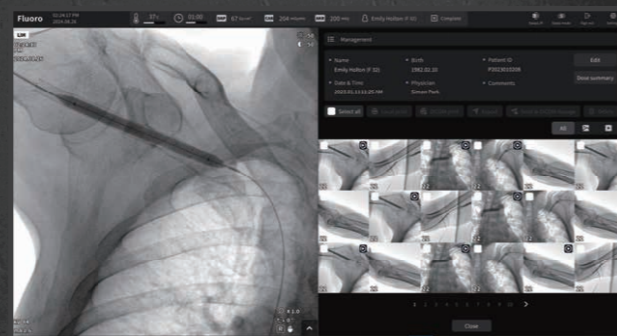

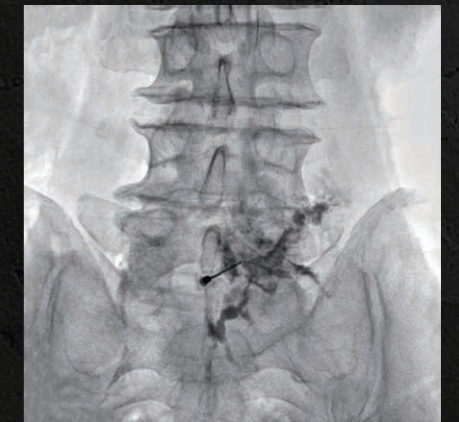

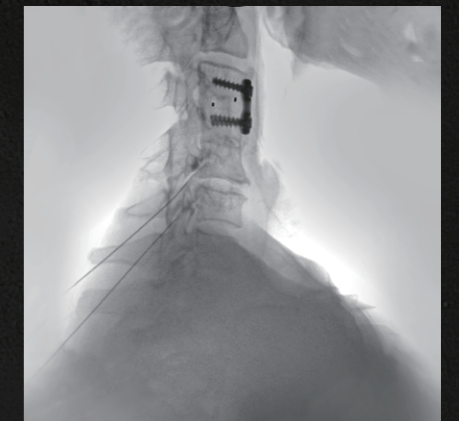

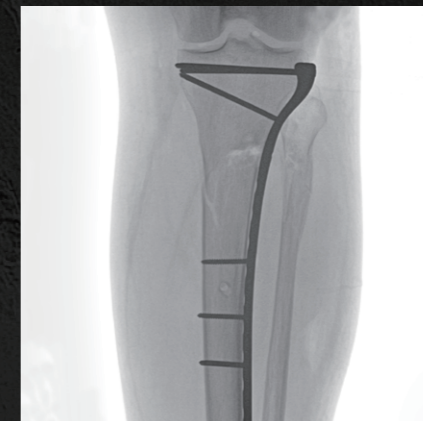

Image Scroll Function

Stored images can be reviewed quickly while scrolling, making it much more efficient.

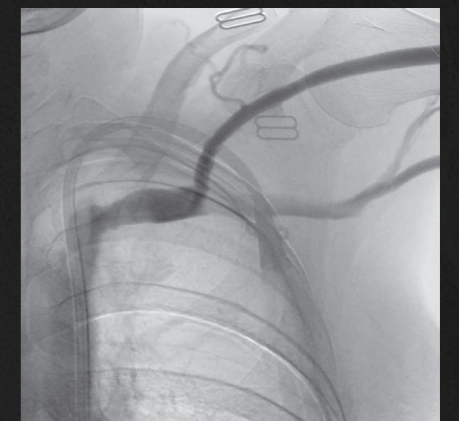

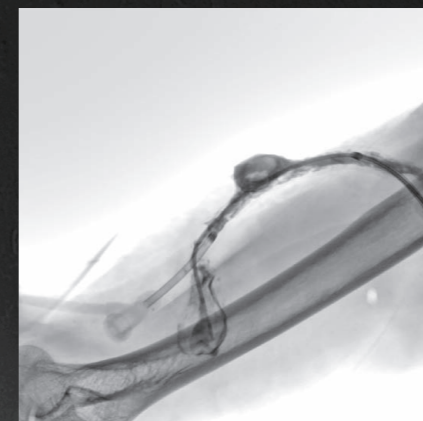

Pain management

Orthopedics

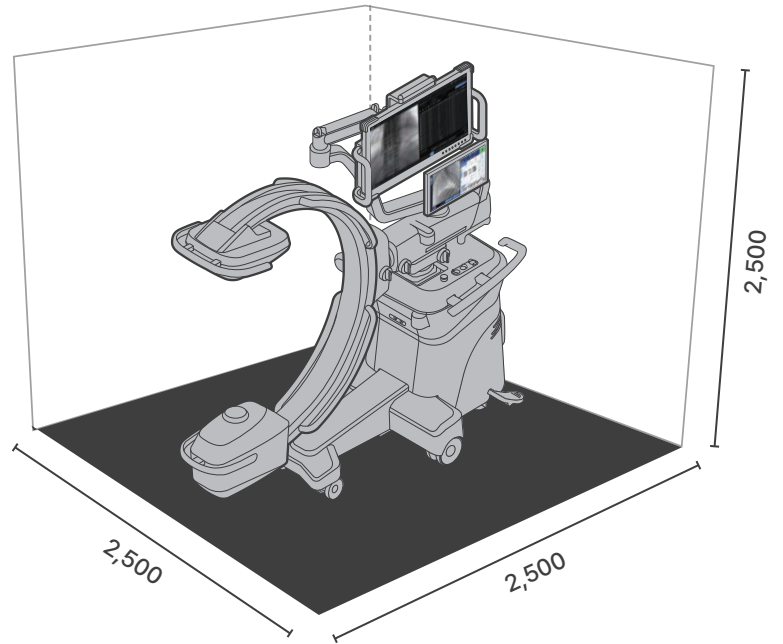

DSA *Option

Live image with Contrast Medium injection
